

Certificate of Completion

September 3, 2026

Ali Saad

has successfully completed the
AI Web Development Course

Gonzalo Manrique Sabatel
Co-founder & Co-CEO · Ironhack School Inc.

A 400+ hour program including pre-work, practical labs, hands-on projects and career development.

Industry-relevant skills in HTML, CSS, JavaScript (ES6+), React, Node.js, Express, and MongoDB, with AI-assisted development workflows. Working with tools such as Git/GitHub, AI coding assistants (Codeium, ChatGPT Free, Claude Free, Replit AI), modern development workflows, and cloud deployment services to build full-stack web apps enhanced by AI.

Real-world projects applying front-end, back-end, and full-stack development principles, including AI-assisted debugging, component generation, workflow automation, and responsible AI usage. Demonstrating the ability to architect, build, and deploy dynamic, production-ready applications while collaborating effectively with AI tools.
